

Saurabh Gaikwad

Salesforce Developer | 4.5 Years Experience

Pune, India | +91 8668411367 | saurabhgaikwad2097@gmail.com | linkedin.com/in/saurabh-sanjay-gaikwad-02916a1b2 | Trailhead: sgaikwad1997

PROFESSIONAL SUMMARY

Salesforce Certified Platform Developer with 4.5 years of experience designing and enhancing enterprise Salesforce applications using Apex, Lightning Web Components (LWC), Triggers, Flows, SOQL, SOSL and REST APIs. Experienced across Sales Cloud, Service Cloud, Veeva CRM and Salesforce Field Service (FSL). Currently contributing to Bayer's global FSL implementation by developing and enhancing solutions for Work Orders, Work Order Line Items, Service Appointments, Assets, Equipment, Service Contracts, Work Types and Service Territories. Strong expertise in Agile delivery, code reviews, debugging, deployments and scalable Salesforce application development.

CORE COMPETENCIES

Salesforce	Sales Cloud, Service Cloud, Salesforce Field Service (FSL), Veeva CRM
Development	Apex, LWC, JavaScript, SOQL, SOSL
Automation	Flows, Triggers, Validation Rules, Workflow Rules, Process Builder
Integration	REST API, JSON, Postman
Tools	Git, Salesforce DX, VS Code, Data Loader, Workbench, Salesforce Inspector
Methodology	Agile, SDLC, Unit Testing, Code Review, Deployment

PROFESSIONAL EXPERIENCE

Salesforce Developer — Cognizant Technology Solutions

Jul 2021 – Present

Project: Bayer — Salesforce Field Service (Manufacturing Domain) | Mar 2026 – Present

- Developed and enhanced Lightning Web Components (LWC) to improve Field Service user experience.
- Implemented Apex Classes and Apex Triggers for business logic across Work Orders, Work Order Line Items, Assets, Equipment, Service Appointments and Service Contracts.
- Customized standard FSL objects including Work Types, Service Territories and related automation.
- Built Record-Triggered Flows and Validation Rules to automate business processes and improve data quality.
- Optimized SOQL queries and Apex logic following Salesforce governor limit best practices.
- Collaborated with Business Analysts, QA and functional consultants to deliver new features and enhancements.
- Participated in code reviews, unit testing, Git-based deployments and Agile sprint ceremonies.
- Performed root cause analysis and implemented scalable, reusable Salesforce solutions.

Project: AbbVie — Sales Cloud & Veeva CRM (Pharmaceutical Domain)

- Developed Apex, Triggers and Lightning Web Components for Sales Cloud and Veeva CRM.
- Configured business processes and automation using Flows and Validation Rules.
- Performed bulk data migration using Data Loader with high data accuracy.
- Reduced manual effort through reusable components and process automation.
- Mentored junior developers and contributed to technical discussions and code reviews.

CERTIFICATIONS

- Salesforce Certified Agentforce Specialist
- Salesforce Certified Sales Cloud Consultant
- Salesforce Certified AI Associate
- Salesforce Certified Platform Developer I
- Salesforce Certified Administrator

TECHNICAL HIGHLIGHTS

- Strong understanding of Salesforce security model, sharing, governor limits and bulkification.
- Experience building reusable Lightning Web Components.
- Knowledge of asynchronous Apex (Batch, Queueable, Future, Scheduled).
- REST API integration concepts and JSON processing.
- Experience with deployments using Salesforce DX, Git and Change Sets.

EDUCATION

B.E. Computer Engineering | JSPM's Imperial College of Engineering and Research | 2021 | CGPA: 7.72/10

Higher Secondary Certificate (HSC) | Army Public School | 2015

Secondary School Certificate (SSC) | Army Public School | 2013
